

### Adjunctive CGM’s Medical Benefit for Florida Blue Medicare Members Only

#### Purpose of this communication:

- Effective June 15, 2023, adjunctive Continuous Glucose Monitors (CGM) (E2102) ordered for Florida Blue Medicare Advantage members by their physician will be coordinated by CareCentrix under the member’s medical benefit **only if requested at the same time as an insulin pump (E0784)**.

#### What do I need to know?

- If the adjunctive CGM (E2102) and insulin pump (E0784) are requested together, the services must be registered with CareCentrix.
  - In addition, the **initial** 90-day adjunctive CGM supplies (A4238) can be included with the CGM request.
    - All refills after the initial 90-day adjunctive CGM supply (A4238) will not be coordinated by CareCentrix and must be obtained through the member’s retail pharmacy.
    - The resupply of A4238 will remain under the medical benefit.
- BlueCard Medicare Advantage and Commercial members are not impacted by this change.

#### What do I need to do?

- Review the below grid to determine where you should register/request authorization and submit claims:

HCPSC CODE	Register/request authorization and submit claims to
E0784 + E2102 + A4238 requested at same time	CareCentrix: insulin pump + adjunctive CGM device + <u>first time CGM supplies (90 day supply)</u>
E0784 + E2102 requested at same time (NO supplies)	CareCentrix
A4238 requested separately or for refills	Florida Blue
E2102 requested separately	Florida Blue
E2102 + A4238 requested	Florida Blue

HCPSC Codes Legend:  
E0784= insulin pump    E2102= adjunctive CGM device    A4238= adjunctive CGM supplies

Thank you in advance for your cooperation and continued partnership.
