

Provider Newsflash January 2023

Reminder: CGMs moved to Pharmacy Benefit for Florida Blue Medicare Members

Purpose of this communication:

- To remind providers that, effective January 1, 2023, Continuous Glucose Monitors (CGM) required by Florida Blue Medicare Advantage members will be covered under the member's pharmacy benefit instead of the medical benefit. Therefore, CareCentrix will not coordinate CGMs for these members beginning January 1, 2023.

What do I need to know?

- Beginning January 1, 2023, CGMs and related supplies will be covered under the Medicare Advantage member's pharmacy benefit.
- Claims with dates of service through March 31, 2023 where the authorization requests were submitted to and approved by CareCentrix for starts of care December 31, 2022 or prior should be billed to CareCentrix.
- Claims with dates of service with starts of care January 1, 2023 or after should be billed through the Florida Blue pharmacy benefit manager.
- BlueCard Medicare Advantage and commercial members are not impacted by this change, so CareCentrix will continue to coordinate CGMs for these members.

What do I need to do?

- Beginning January 1, 2023, CGMs for Florida Blue Medicare Advantage members will be covered under their pharmacy benefit. Providers should look on the member's Florida Blue ID card to see which pharmacy benefit manager to contact to arrange a CGM for a Florida Blue Medicare Advantage member.

Thank you in advance for your cooperation and continued partnership.
